

	Outcome: Convicted at Trial		
	(1)	(2)	(3)
Convicted on Appeal	.629*** (.006)	.609*** (.006)	.586*** (.006)
Individual Controls	-	Yes	Yes
Fixed-Effects	-	-	Yes
Observations	16,791	16,791	16,791
<i>F</i> -stat	11,463.4***	771.81***	11.10***

Note: First-Stage regressions here report the correlation between being convicted at trial and being convicted on appeal for all candidates who have had their candidacy challenged under charges of electoral irregularities. I present results including and excluding individual politician characteristics; municipal, electoral, and party fixed-effects; and use robust standard errors. *p<0.1; ** p<0.05; *** p<0.01
